PROFESSIONAL SUMMARY

Dynamic Associate Director with 12+ years of experience designing AI-powered data analytics solutions that drive measurable business outcomes. Proven expertise leading 24-member cross-functional teams to deliver scalable Snowflake-based dashboards, AI-augmented reporting, and clinical analytics platforms. Achieved a 50% reduction in development timelines through unified data model architecture and a 40% dashboard performance improvement. Passionate about building high-performing teams and enabling data-driven decision-making. Seeking remote leadership roles in Healthcare, Pharma, or SaaS analytics.

WORK EXPERIENCE

Associate Director — Data & AI July 2021 — Present

RxDatascience Inc (Syneos Health Company) · Remote, India

- Lead 24 engineers & analysts delivering AI-powered analytics on Snowflake, Cortex AI & Power BI — achieving 40% dashboard performance improvement driving executive decision-making across clinical, commercial, and HR functions
- Designed a unified Snowflake star schema data model for multi-client & multi-product architecture — reducing development timeline by 50% and enabling new client onboarding with zero rework
- Lead full Agile Scrum delivery and stakeholder engagement — translating complex requirements into scalable analytics solutions while mentoring the team on Snowflake, Cortex AI, and best practices

Career Break — Marriage & Maternity March 2017 — May 2020

Personal — India

Deliberate career break for family — remained engaged with the data and analytics field through self-directed learning.

Senior Business Analyst May 2020 — July 2021

Kyyba India Pvt Ltd · Remote, India

- Converted HTML reports to Jasper Reports, led requirements analysis for RFEs, resolved data quality issues, and designed UI/UX mockups in Adobe XD — improving reporting delivery time and user experience

Product Specialist August 2011 — March 2017

Cognizant Technology Solutions · Chennai, India

- Led design, build, and enhancement of healthcare payer solutions across membership, claims, and benefits modules for multiple US clients — managing defect resolution and improving operational efficiency

SKILLS & TOOLS

Expert	Snowflake · Snowflake Cortex AI · SQL & PL/SQL · Power BI · Data Modelling · Team Leadership · Agile Scrum · Healthcare & Pharma
Proficient	Tableau · Databricks · dbt · Python · Streamlit · Jasper Reports · JIRA · AI-Powered Reporting · Star Schema Design · ChatGPT & Copilot
Familiar	KSQL · JavaScript · HTML · Adobe XD · Power Automate
Domain	Clinical Trials Analytics · Pharma Commercial · HR Analytics · Healthcare Payer Systems · Claims & Benefits

KEY PROCESS IMPROVEMENTS & IMPACT

50% reduction in development timeline	Unified Snowflake star schema data model supporting multi-client & multi-product architecture
40% dashboard performance improvement	Redesigned Power BI dashboards — enhanced UX, faster load, increased executive adoption

30% reduction in repetitive errors	Quarterly defect review process identifying root causes and preventive actions
Zero mock-data rework	Streamlit + Cortex AI real-data prototyping for stakeholder KPI validation before production
Configurable KPI framework	Reusable KPI logic adopted across multiple clients with zero rework — table-level config only
Proactive stakeholder clarity	Pre-development alignment meetings eliminating assumption-driven rework and mid-sprint pivots

CERTIFICATIONS & EDUCATION

◆ ORACLE Certified SQL Expert (OCA)	Oracle · 2014
◆ Master Certification in Data Science	Simplilearn · 2020
◆ AHM 250 — Introduction to Healthcare	AHIP · 2012
◆ BE Electronics & Communication Engineering — 80%, Top 10%	Anna University · 2011

AWARDS & RECOGNITION

Exceptional Performer	Latest appraisal cycle — highest performance rating at RxDatascience
Consistent Strong Performer	Multiple consecutive appraisal cycles — RxDatascience
Best BI Visualization Idea	Cash prize of Rs.10,000 for outstanding data visualization concept
Associate of the Quarter	Q4 2016 · Cognizant Technology Solutions
